

Dear Patient,

Thank you for choosing Marietta Eye Clinic for your cataract surgery consultation! Helping patients restore sight with this amazing procedure is a primary focus of our practice and has been performed over 50,000 times during our 50-year history.

Cataract surgery has evolved considerably over the last 20 years and is considered to be one of the safest and most successful surgical procedures performed in the United States today. At Marietta Eye Clinic, we offer customized options including today's most advanced lens selection and precision laser technology.

Once you've made the decision to have cataract surgery, there are important choices and custom vision opportunities ahead based on your personal preferences and interests. Recent innovations have created a variety of lens designs, each with their own unique features. Your lens selection is an important decision since you will be looking through these lenses for the rest of your life. We want you to choose the implant that will help you regain your lifestyle and what you love to do most. Please feel free to discuss your lens options with family or friends.

We now also offer an advanced laser treatment that can effectively treat both your cataracts and astigmatism within the same procedure. In addition to removing your cataract with precision, the laser will reshape your cornea to reduce your astigmatism with the ultimate goal of further enhancing your vision and decreasing your dependency on glasses.

Before your office visit, we kindly ask that you read the enclosed materials. **Please also complete the "Patient Medical Information", "Vision Preferences Checklist" and bring them (along with Insurance Card and Picture ID) to your appointment.** You can expect to be in the office for at least three hours for your cataract consultation, as we will do a complete examination including dilation of your eyes and multiple pre-surgical measurements. It is always advisable to have a driver after your eyes have dilated.

Cataract surgery is a one-in-a-lifetime procedure with an opportunity to permanently change how you see the world. We look forward to helping you see your best!
